ISLAND AND END CAP DISPLAY CASES

DESIGNED WITH IMPULSE SALES IN MIND

DESIGNED TO INSPIRE: VERSATILE SOLUTIONS TO FIT ANY SPACE

Built for Flexibility

Federal's Island and End Cap display cases are designed to encourage impulse purchases. This versatile line of refrigerated

models comes in various size options to best fit the needs of your business. These display cases frame your product and ensure that your

merchandise is the focal point of your customer's experience; maximizing returns and boosting your sales.

Efficiency

DLC Certified & IP66 Rated

Our display cases have been given a DLC Certification based on extensive testing that results in superior energy efficiency over competitors. Our IP66 rating means that our display case's lights have the highest level of waterproof protection and maximum dirt and dust resistance.

LED Lights

The Island and End Cap Series display cases come equipped standard with top and under-shelf LED lighting. These LED refrigeration lights release less heat than typical refrigeration lights, lessening the strain on the cooling system and extending the life of your display case.

Air Deflector

Each display case comes with an energy-saving deflector that helps direct airflow for improved cooling. This reduces your display case's energy consumption.

Electronic Temperature Control

This series of display cases also come equipped with an electronic temperature control that maintains an internal temperature of 38° to 40°F.

Quality

Made in America

We manufacture in the USA guaranteeing you shorter delivery and high standard of quality. Our Island and End Cap Series display cases are UL & NSF certified and DOE 2017 compliant.

Higher Reliability

Our PTC Evaporator Heater gives you greater environmental control, eliminates the need for draining accumulated water, and provides a safer experience for your guests by reducing the potential for water on the floor. In addition, these display cases come with an oversized Evaporator Coil and Low-velocity Fan System making them much more efficient.

Customizable

Various Sizes

The Island display cases come in various size options including: 60", 84", and 120". You can also choose between either two or three tier shelving options. The End Cap display cases come in 40" or 60" sizes and come with three tiers of shelves.
