

## 100 Years of Innovative Ideas

### The Exclusive Source of Coordinating Heated, Refrigerated and Non-Refrigerated Merchandising Solutions Engineered Especially for K-12

When you work with Federal Industries, you tap into food merchandising expertise that's unparalleled in the industry.

For a century, we've dedicated ourselves to providing innovative solutions, impeccable craftsmanship and customization that meets the unique needs of each customer. We've flourished over the decades because we deliver genuine value with reliable, USA-made products that make your job easier.

That's why one of the nation's largest school districts put Federal Industries merchandisers in more than 100 schools a decade ago. And now that it's time for a refresh, they've chosen Federal Industries products again.

Federal Industries has re-engineered the traditional milk case, creating an innovative airscreen merchandiser that offers quick access, rear reloading and easy cleaning. The adaptable design features the ability to accommodate a large volume of milk crates as well as movable shelves to feature other cold food or beverages.

Generate the Revenue Your Program Needs to Nourish Young Lives

## The K-12 Nutrition Challenge:

## Do More.

# Do It Better.

Do It Safely.

## We Can Help.

It's a new era for K-12 Nutrition.

Breakfast, Lunch served in shifts, After-school snacks and meals. Multi-use spaces instead of dedicated cafeterias. And then there's the off-campus pull of fast food restaurants and convenience stores siphoning away much needed revenue!

The demands keep growing, but the resources don't. To manage, you need innovative new ways to nourish young lives and help your program thrive. That's where we come in.

### Serving Up What K-12 Nutrition Needs! Grab & Go Dining Engineered Expressly for Schools

### Built for Years of Trouble-Free Service

- American made to meticulous standards
- Stronger, welded, powder-coated, metal frame withstands high humidity and repetitive movement NEVER moisture-absorbing wood that warps and weakens • Premium materials - rust-free stainless steel deck pans, moisture-proof side panels that won't delaminate, and coated evaporator coils that resist corrosion Food-enhancing, long-lasting LED lights

- Every model rigorously tested in our UL-approved laboratory to ensure temperature uniformity and food safety (Our competitors' units can vary by 8 to 10 degrees or more within a unit!)

#### Adaptable

- Keep your options open with displays that adapt to changing demands • Shelves and lighting adjust to display virtually any menu item
- Casters for easy relocation
- Combine multiple units for an efficient footprint and consistent presentation

#### Easy & Efficient

Conserve energy, preserve food quality and reduce labor

- Swap out lights, move shelves and do routine maintenance without tools
- Sensor-driven defrost reduces energy consumption and keeps temperatures consistent
- Insulated cabinates conserve energy
- Optimal read door access for uninterrupted service while restocking

#### Customizable

*Virtually limitless customization opportunities with no additional lead time needed!* 

- More options for laminates, casters, rear-loading doors and internal colors than any other manufacturer
